

Privacy Policy

LAST UPDATED: 21 AUGUST 2026

What we collect

Account data: your name, work email address, and password (stored as a salted hash, never in plain text). Company data: your company's legal name, trading name, address, country, tax/DUNS identifiers, and industry sector. Usage data: sign-in timestamps and the actions you take within compliance requests (e.g. submitting a response), which we log for audit and support purposes.

Why we collect it

We use this data solely to operate your account, route compliance requests between your company and its supply-chain partners, and provide support. We do not sell personal data or use it for advertising.

Where it is stored

Data is hosted in Azure EU regions, encrypted in transit (TLS/HTTPS) and at rest. Access is scoped per company — your data is only visible to your own company's users and the counterparties you choose to send compliance requests to or receive them from.

Your rights

You can review and update your account and company details at any time from Company Profile and User Management. For any other request regarding your personal data, contact your account administrator or SacsiN support.

Contact

Questions about this policy can be directed to your SacsiN account representative.
